

SUPPLIER SELF-ASSESSMENT

In order to secure the further development of our business activities, we depend on successful and reliable suppliers.

The questions in this document shall provide us with an initial overview of your company. They are part of a potential future cooperation

Thank you very much for your support.

Minimum requirements for new suppliers:

- Automotive products and services (production material): The supplier has a certified quality management according to ISO 9001 with a valid certificate issued by an accredited body.
- For all other products and services (production material): The supplier has a certified quality management according to ISO 9001 with a valid certificate issued by an accredited body. Alternatively, the supplier may be qualified by a release process defined by Magnet-Schultz GmbH & Co. KG.
- Communication in German and/or English language with all relevant departments (Purchasing, R&D, Quality and Logistics).
- Option to visit/audit the production facilities.
- Signed Non-Disclosure Agreement before starting business relationship.
- Completed questionnaire (supplier self-assessment) before starting business relationship in the field of production material.
- Compliance with the applicable legal and official requirements of the exporting country, the importing country and the country of destination specified by the customer – if provided to the supplier.
- Suppliers are expected to adhere to ethical principles and to prevent bribery and corruption in their company policy, in accordance with the MSM [Code of Conduct](#).
- MSM expects a disclosure obligation regarding Conflict Minerals and regulations of harmful substances (REACH, RoHS...) from their suppliers.
- The supplier has and maintains a system (e.g. ISO 27001) against cyber-attacks, phishing, ransomware (blackmail software) etc.
